

# An Eyecare Plan *With You in Mind*

Are you really seeing your best? Or are you simply used to the view? With good vision, your experiences are clearer. Sharper. And a lot more vivid.

*85% of all you experience is through your eyes*

Besides helping you see better, routine eye exams can detect a number of serious health conditions such as glaucoma, cataracts and diabetes. Even cancer. Plus, eye exams for kids can spot problems that can impact their learning and development.

## *Always Accepting New Patients*

VSP network doctors are located right where you need them — close to work, home and shopping malls. They provide top quality care and offer a wide selection of frames to choose from — all at one convenient location. Their commitment to care and service grows with you and your family for a lifetime of care.

No ID cards. No claim forms.
